Greetings from the Commodore Gary Kuschel

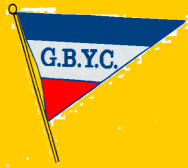

Greetings to all, I hope you are all enjoying this nice weather. This is the reason we have boats. O.K, that and it's also something to throw money at. As you've probably noticed, we are back in the gas selling business, with our new attendant, Mason Lipinski, eager to assist you. Thanks to Dan, Steve, Tony and all the others, who helped make it all happen. It seems we thank the same names a lot for volunteering. It would be nice to add some new ones. Remember volunteering is what keeps our cost low, and fun high. Try it, you'll like it. Harboritaville is happening on July 16th, a fine opportunity to get some hours, and have a good time. The summer socials are in full swing, thanks to Jay for June's fine meal. Look at Miss Heather's article for details on all our events. That girl knows parties. Well since my lawn chair and ice cold drink are calling my name, I'll cut this short.

As always it's your club, enjoy it. I'll see you there.

Gary

June 15th we welcomed back the “Summer Socials”! Jay Zahn and team treated us to delicious Ribeyes and- Patrick Foley did an outstanding job bartending. All proceeds/tips will be donated towards the 2017 GBYC St Baldrick’s team. The July 20 Summer Social, will be hosted by Dan Hieptas and will feature his world famous Pork Chops for \$15. Sign up early! The staple event “The Luau” has been reinvented to be “Harboritaville” on July 16th. We came close to not hosting this because no one stepped forward to decorate and do set up for it. There are a lot of questions regarding this change and I hope to clarify them for you here. On Saturday, July 16th beginning at 4pm and

going until 7pm, the area between the pavilion and the clubhouse will be reserved for \$20 tailgate ticket holders only. **(If you plan on doing this and you email me ahead of time...I will reserve a spot for you) This is first come, first serve.** What is a Tailgate... A tailgate party is a social event held on and around the open tailgate of your vehicle. Tailgating, often involves consuming beverages, music, a table with food, lounge chairs and games. Tailgate parties occur in a parking lot. THINK LAMBEAU FIELD before a home game. The \$20 also gets you 2 cheeseburgers in paradise & French Fries, a Heath Rum Coloda and the Band cover charge. From 7-11pm you are able to enjoy music by-ROCKER! ROCKER! ROCKER!. For \$10 you are able to enjoy the band only... but you can purchase the food. We will have contest for the following categories....1. Most creative tailgate (tip: I like vehicle’s that are made into sharks). 2. Most non-members attending your tailgate party (INVITE GUESTS). 3. Best appetizer that is shared at a tailgate and 4. The most interactive tailgate. We will have a portable “SAND BAR” setup under the pavilion for your guests to purchase drinks from. Ticket prices go up on July 9th. To further explain a tailgate example: The Heils, The Foleys and The Johnsons, will all purchase \$20 Tickets (totaling \$80). We will have 1 decorated vehicle, with three appetizers to put on a table that we bring. We will have music, 6 chairs and 20 invited non-member guest who all paid \$20 a ticket to have Cheeseburgers and a heath-rum-colada. We will have our guests park in the Metro Boat Launch parking lot. They will eat, drink and be merry with us at our tailgate. Whew! Hope that covers it. Coming in August: August 17th, Summer Social. August 20th, Dinghy Poker Run (Gene Francisco).

House Kris Johnson

Summer and hot boating days are finally here. Don't forget your ice to keep your drinks cold. Bags are available at both freezers for \$1. Mason has been trying to keep them full. Otherwise you can bag your own inside the club for .50. Please pickup spilled ice off of the floor. We do not need anyone falling. The kitchen is open on our normally scheduled days Tuesday burgers, Thursday Mexican, Friday fish. We have cod nugget baskets and walleye finger baskets now available. Sunday chicken is going strong. Remember if you plan on bringing groups down, please let Todd or myself know so we can accommodate for them. And please pick up after yourself and/group. See you there!

[Grassy Island Range Lights, Inc.](#)

THE GHOST OF THE GRASSY ISLAND RANGE LIGHTS

Throughout the events of this past week, I came across several pieces of information that I now have accumulated to share with you . I assure you that however absurd my story may seem the truth is, real life is often more entertaining than fiction. The Admirals Nelson and Baenen decided to set up camp and sleep inside the North Range Light on Friday, November 9, 2001. All was well and the initial night seemed to be a success. As they settled down to rest, they had no idea what the night had in store for them The occasional sounds of howling wind and rippling water were nothing new for these two hardy sailors, and they slept without fear. It wasn't until the early hour of 2:00am that an unusual sound awoke them from their peaceful slumber. It was a solid thundering of footsteps on the tin above them that caused the Admirals to lift their ears up, tilting down their heads. A puzzled look came across their faces as they shook their heads back and forth at each other as to reassure themselves it was nothing. Again, the sounds of footsteps echoed throughout the inside of the lighthouse. They wondered what could make such a noise. Without the aid of a flashlight, the two Admirals slowly climbed the dark wooden stairs, stepping lightly so their presence would not be known. Together, they opened the trap door as its rusty hinges screamed a large squeaking siren, alarming anyone or anything that may have been there. They made their way cautiously to the lantern room which was well lit. Their eyes moved rapidly scanning every inch of the room only to find it completely empty. Admiral Baenen noticed the door leading to the walkway outside was unlocked. Without hesitation, he locked it tightly. Admiral Nelson nodded his head slightly as a sign of approval. Their eyes met, each trying not to be the first to speak the eerie thoughts in their heads. They made their way back down quietly, both deciding it was better not to speak. While they attempted to fall back asleep, quietly, both decided it was better not to speak. While they attempted to fall back asleep, Admiral Baenen heard more footsteps, this time much closer than before. The sound grew louder behind him, and he could sense something creeping about. He slowly turned his head, squinting his eyes to see in the dark. Finally he focused in on the figure to find that it was only Admiral Nelson walking to lock the door to the lighthouse. Admiral Baenen closed his eyes as he let out a sigh of relief. They both returned to a restless sleep with adrenaline still in their blood. As I heard these stories, I wonder what made the noise. Could there be some apparition that remained all these years in the lighthouse? I have heard many legends of ghosts living inside lighthouses. Perhaps there is more history involved in these range lights I am hoping you ha have more information and would be so kind as to enlighten me as I continue on my research As I learn of more information I will submit it in my correspondence to you. Respectively yours, The Admiral's Daughter.

Fleet Captain

Hello fellow GBYC'ers!

Well the boating season is in full swing and I hope everyone is having a fun filled boating season thus far. The weather has been awesome for a taking a trip down the river, a trip to Longtail Island or a run up the Bay of Green Bay. The fuel system is in full operation, with gas priced at \$3.00 per gallon, 89 octane with no ethanol. The way the system works is, you must either request a dollar amount of fuel or a gallon amount ... so, you need to know approximately how much fuel you will need. Once that amount of fuel is dispensed the pump will shut off. All who have used the new fuel system thus far give it a thumbs up! Mason Lipinski is our new Fuel Dock Attendant and is doing a fantastic job. Fuel Dock hours are as follows:

Wednesday: 4:00 - 8:00

Thursday: 4:00 - 8:00

Friday: 4:00 - 8:00

Saturday: 9:00 a.m. - 3:00 p.m.

Sunday: 9:00 - 3:00 p.m.

Any questions please feel free to call me @ (920) 621-4497 thanks.

Notice to all Marina Dock Floaters, please sign in and out of the slip you are floating in and whenever you make a move. This is extremely important for accurate records and accounting information.

To All GBYC Slip Holders, with the "Tall Ships" coming the first weekend of August, I am asking that you please sign out of your slip that weekend if you are heading to "Menomonee Days" for the weekend, thank you. The speed bumps in front of the club seem to be working nicely, slowing down traffic going past the club house.

Please continue to watch for children and increased pedestrian traffic, thank you.

Reminder: "ALL TRAILERS" on the property must have a GBYC trailer sticker by the end of June or be subject to possible immobilization. Please see me or call me if you have any questions. In closing, please continue to be respectful about parking in front of your slip, with one parking spot per slip and overflow parking on the gravel or in the club lot. Additionally there has been an issue with the west end of the Southside out near the Lighthouses being congested with vehicles and not able to get a vehicle out to the Lighthouses. This is "extremely important"... "Please" keep that area open to traffic and we must maintain 20 feet of Clearance for any possible Emergency Vehicle traffic to that area! , thank you. Have fun on the water this summer.... take care, be safe.....and see you all at the club!

Steve

Building

Jim Thompson

I'm going to make this short and sweet. Happy Fourth of July everybody and good boating.

**Grounds
Robb Collins**

Hi everybody, the grounds are shaping up with the hiring of Mason our gas dock attendant. I am working on getting the supplies and a sprayer for weed control. I want to thank Wayne Dunbar and the Green Bay Sail and Power Squadron for giving the club a sign, No swimming be aware of stray voltage in the marina or ESD.

ESD is a term that references in-water injuries or fatalities resulting from electrical shock. ESD often occurs when low levels of AC current pass through a person's body, causing paralysis of their muscular and skeletal systems while swimming or otherwise immersed in fresh water. When so paralyzed, the victim is unable to swim or move to safety and, as a result, the victim ultimately drowns. Higher levels of AC current in an ESD incident may result in electrocution. The sign is posted right next to the anchor as you drive into the club. This is something we really all need to keep in the back of our minds. We all know that there is no swimming. But our guests do not and if nothing is said, someone could jump in even as a joke which could end up to be fatal. Another thing I would like to talk about, which I really should not have to because this is your club. Is cigarette butts. One on the ground is too many. I pick them up all the time. Mason has been instructed also to pick them up but we should not have to. This is your club please help keep it clean. If you need hours, I'll still be at the club Tuesday nights from 4:00 to 6:00. There is always something that needs to be done. See you around the club. Remember Smile it confuses people, and if you meet someone who does not have one, well just give them one of yours. Robb
