Ahoy everyone!

Summer is finally here! Hooray!

Hopefully everyone had a great holiday weekend. I'm sure we're all looking forward to many more fun days on the water.

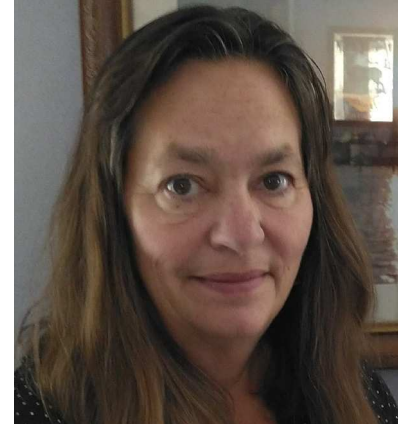

Mike Skorczewski has done a lot of work in regards to the power pedestals. Elsewhere in this Dockline you will see information regarding the labeling of the pedestals as well as who to contact if you are having any issues.

If you're looking for hours, I'm sure John Bauman would appreciate help keeping the aerators clean. Also, with cottonwood season approaching, the air conditioners behind the kitchen will need to be hosed out on a regular basis. This helps keep the building cool.

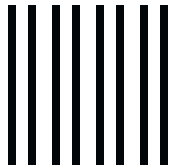

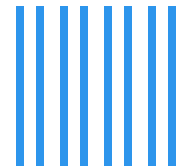

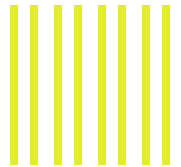

The signature event of the summer is coming up this month. Look for more information about the Summer Bash scheduled for June 24th. We will be having the Crankin' Yankees again for the entertainment.

I'll keep it short this month so you can spend more time on the water. I want to wish the dad's a Happy Father's Day!

Dawn Demeny Commodore

Commodore Dawn Demney
AKA (Madam Commodore)

The parking lot is getting new stipes !! This is Happening on Friday June 2nd , so please do not let your children loose or your fur babies while the paint is WET !!

Jason Dornor
Grounds Guy

Hello All,

If the parking lot around the clubhouse is not striped yet, it will be soon. With that being said, please watch Facebook or goose droppings for possible parking lot closures.. Also Please do not attach any items to our blacktop. It is very expensive to maintain and putting holes in it. By doing so it decreases the life by allowing water to leak through the surface, freeze and crack it in the fall and winter months.

Soon we will be putting pavers on sale for the memorial patio. My thought process is if we pre-sell the pavers and get them engraved then they can be installed immediately . There will be a couple week window to sign up and order . Again watch for information on Facebook and goose droppings.

A reminder, it is our job as members to keep the weeds under control behind the boats in the stone ,and breaker rock. Also any that come through the blacktop cracks. (Sealcoat is not a herbicide). Be sure to write down your hours.

Please consider running for a board position in November. We will be having positions open. Remember now we run for specific position. Please ask the Commodore or a board member if you have any questions. It is a great way to understand how the club works, and also drive new ideas to better the club.

Let's all have a safe, boating, season and get out and enjoy the water !!! There are so many things to do in the see. Whether you're a new boulder or a seasoned veteran. Share your experiences and boarding stories and help keep our sport alive !! BOATING IS AN ADVENTURE!!
Your Grounds Guy , Jason Dorner

June brings us our official start to Summer. Welcome back Mickey Grasso back on June 9th for some great music 6-9. June 18th we would like to wish all Father's a Happy Father's Day. June 21st we start our Summer Social Season. Get you and your Honey signed up for a great sit down dinner Date Night. If anyone would like to help and put on a Smoker or a Summer Social. Let me know and we can show you the reins. June 24th we bring June to an end with our Summer Bash with some great music, food and drink. This event is open to the public so bring your whole family and all your friends and help support the GBYC

Hello fellow boaters! For all you guys that like craft beers we're going to have 4 different tapers on the wall!! Also come down to the inner club party. It's a good time !! JT

Gary Kuschel
House

Just a couple of things this month. You might see a new face or two behind the bar, if you do please make them feel welcome. We are in need of volunteers to waitress or waiter on Friday nights. It's a great way to get hours, meet fellow members, and just be part of the club. If interested give Nikki a call at 920-246-8121, she can schedule you for a day and/ or answer any questions you may have. Help is always appreciated, thanks. All for now, see you at the club. Gary

Fleet Captain
Dan Emmel

The harbor is open for the 2023 boating season. I would like to thank every one that showed up to help help make it a big success. The grounds crew also did a awesome job.

Just a couple of reminders. Removed changed oil and old batteries from club property. After your boat is in the water you have 24 hrs. to move your jack stands and cribbing to the storage area. Make sure you sign into the dock holders log book once your in the water.

If you are looking for hours we always have jobs to do around the club, contact a board member.

Now all we need is some warmer weather Fleet Captain out

Dockside Power News; This spring the electrical Ground Fault Protection system was revisited. All the safety settings have been restored to comply with current code. This has been done for the safety of everyone.

All dock pedestals, receptacles, breakers, shore power cables, and power distribution panels and breakers have been traced, checked, and are labeled or in the process of getting labeled.

If anyone is experiencing issues when connecting to the Dock Pedestals, please talk/text to Mike Skorczewski, 920-362-1505, slip 77, or Dick Heinz, 920-366-4100, or any Board Member. We are happy to check out the system, pedestal, etc. Please help by giving us the label info from the pedestal breaker, such as, S3-D19 PDP3A 8, so that we know where to do the checking.

What does the label mean? Receptacle number: S3 Dock pedestal: D19 Power dist: PDP3A Circuit breaker: 8 As of this writing, we are aware of some bad circuit breakers which are on order and set to be replaced as soon as they arrive. Let us know if you have any question

The Grassy Island Range Lights

Grassy Island Range Lights Ode to a Lighthouse (original by Paul Bradley) I salute you, valiant ladies For you have known no peers You have been faithful servants Thru all these many years. When on the storm tossed waters In Darkest noon or black of night Just to spy, your winking eyes Was a satisfying sight. And though retired, you're still admired But time and tide don't wait For these same admiring people Have left you to your fate. But I, for one, stand by you Whatever be your plights, I sound the call, to one and all We must save "Grassy Island Range Lights". Your Grassy Island Range Lights have had a long life. Last year we celebrated their 150th birthday. They must continue to salute all vessels the enter or leave the Port of Green Bay. As beautiful as they are, they continue to require maintenance. That's your job and mine. Since 1966 they have been part of the Green Bay Yachting Club. Over that span of time many people have been involved in their restoration and maintenance. They are not made of plastic but wood which requires ongoing maintenance. Hopefully they will be around for at least another 150 years. I sound the call, to one and all We must save "Grassy Island Range Lights"
