ENTERTAINMENT

As we roll into March with the anxiety that it is still weeks away before the boats get in the water. I want to thank everyone who came out to the club for Mardi Gras and Chili Cook Off in February. Both events went very well. A big thank you to Brett Boehm (Mardi Gras), Ann Emmel (Chili Cook Off) and Jonathan and Toni Soyring (Both Events) for the hard work.

As of right now not much is happening this month at the club.

The Inter Club Party is April 13th. Jim Manlick is coordinating this event. Please contact him if interested in going.

We have the Kentucky Derby on May 4th, Blessing of the Fleet on June 1st with special musical guest Dani Maus playing at 5:30.

The Bash is on June 22nd. We have Band Kamp playing this year. Please consider volunteering your time to this event.

That's all for now. If you like to see or have any ideas for a little entertainment, please feel free to contact me.

Thank you.

GRASSY ISLAND RANGE LIGHTS

Hi ya'll. Must be spring with all the open water. Fishing boats below the DePere dam. Wow! Is your boat ready to launch? Weird. Is this some indication of what the boating season will like? Why not? Mother nature is playing tricks on us right?

Regardless of the weather, the Grassy Island Range Lights still stand at the West end of our harbor. For all who have worked on the lights since they left Grassy, there has been a lot of effort and pride. The fact that they actually still exist after a couple of times when they were going to be burned is amazing. There are a lot of people, members of the Yacht Club, former members and light house fanatics who have put in a lot of effort to bring them to where they are today. Is the process done? NO WAY! In order to keep them looking like they did when the Yacht Club became their owner, there is still a lot of ongoing maintenance required. You too can become a lighthouse keeper. Stop on out some Tuesday night after dock day and become a part of the legacy.

"It's about how you're like a lighthouse, always searching far into the distance. But the thing you're looking for is usually close to you and always has been. That's why you have to look within yourself to find answers instead of searching beyond."
